Hillsborough is a vibrant and growing historic town in Orange County, North Carolina. Established in 1754, it is home to over 9,600 people. The town government employs about 100 people. Hillsborough is conveniently located in the Triangle region of the state, close to all amenities and nature and a few short hours from the beach and the mountains.

Minimum qualifications

- A four-year degree in civil engineering or related engineering field from a college or university accredited by the Accreditation Board for Engineering and Technology and at least five years of engineering experience or any equivalent combination of training and experience that provides the required knowledge, skills, and abilities.
- Current North Carolina professional engineering license or ability to obtain the license within 12 months of hire.
- Valid driver's license.
- Three years supervisory experience.

Preferred qualifications

- Esri GIS and ArcGIS Online creator or editor experience.
- Water and sewer system modeling experience.
- Autocad design software experience.
- Familiarity with the North Carolina Stormwater Design Manual and the Minimum Design Criteria (MDC).
- Stormwater control measures inspection and maintenance certification.
- Sewer closed-circuit television, video, sewer, pipeline, manhole, and lateral assessment certifications.

We support training and growth, participating in professional organizations, and innovative ideas. There is no shortage of tasks, and you'll find lots of variety. You will be exposed to all aspects of local government and its infrastructure assets.

You will have a fulfilling career with us if you enjoy interacting with people in one of the coolest towns, crunching numbers and preparing reports, and having a mix of office and field work — and if you love technology and like to set your own schedule and daily tasks.
