## How to Safely Pick Up Takeout to Minimize Risk of COVID-19

***The following recommendations will help keep yourself and others healthy.***

Go when fewer people are expected.

Cover your nose and mouth with a cloth face covering or mask if you can.\*

Go alone, if possible. If others are with you, everyone in your car or waiting outside with you should wear a mask.\*

If waiting outside, stay close to the building to leave 6 feet of sidewalk for others.

If waiting in your car, do not block the travel lanes. Ask the business for alternatives to waiting in the road.

For hands-free pickup, pop your trunk and ask the employee to place your takeout there.

Wash your hands with soap and water for at least 20 seconds as soon as you return home.

\*Health experts advise people under age 2 or with certain health conditions not wear masks.
